AMENDMENT

Honorable Commissioner of Patents
Washington, D.C. 20231

Sir:

In response to the Office Action dated April 8, 2002 please amend the above-identified application as follows:

IN THE CLAIMS:

Please amend claims 7, 10-12, 15, 16, 19, 20, 23, and 24 as follows:

- Sub
DI
C-1*
7. (Amended) An electronic device comprising:
a reflection type liquid crystal panel comprising an active matrix substrate
and a counter substrate, said active matrix substrate having a plurality of thin film
transistors and a plurality of pixel electrodes connected with the thin film transistors;
a light source comprising 3-color light emitting diodes for producing three
primary colors for additive color mixing; and
a reflection plate located adjacent to the liquid crystal panel with the light
emitting diodes interposed therebetween, said light emitting diodes and the reflection
plate arranged horizontally with respect to the liquid crystal panel,
wherein white light emitted from the light source is introduced into said
liquid crystal panel from sides of said counter substrate of said liquid crystal panel.
